COLOR IN FORM

The presented colours originate from Krosno's archival recipes, some of which have not been used for over half a century. Recreated from historical records and traditional technologies, they have been brought back from near oblivion. Today, they stand as an expression of Krosno's heritage and craftsmanship, a brand recognised for generations as a master of colour in glass.

HISTORY OF KROSNO

Since 1923, Krosno has been one of the world's most important centres of glassmaking. For generations, the brand has combined master craftsmanship with technological advancement, creating glass renowned for its quality, colour, form and distinctive character. Today, Krosno proudly continues its heritage, thoughtfully evolving it to meet the expectations of contemporary markets.

COLOR IN FORM

Krosno **Lapis**

Lapis is a deep, richly saturated shade of blue inspired by lapis lazuli. It combines intensity with elegance, evoking the night sky and a sense of calm. In glass, Lapis highlights the purity of form and the depth of the material, giving each piece a clear, refined character.

COLOR IN FORM

Krosno Smoky

Smoky introduces a subtle, translucent grey tone that balances restraint with sophistication.

The colour softens classic silhouettes, giving them a calm, atmospheric presence. This collection reflects understated luxury, where form and colour work in quiet harmony.
